

Stepathon Challenge

Contest

The contest will take place in the month of January, beginning on January 1st 2024 and ending on January 31, 2024.

Entry fee is **\$5.00** that will go towards the prizes of most steps and the raffle (how many will be determined later).

To be eligible, the steps counted should come from mobile phone with Android or iOS operating systems or a smart watch that tracks steps.

You will check in daily by submitting a screenshot of your step tracker on your phone. You may also show your daily step count to the organizer. Remember, if you plan on being out on vacation or cannot submit a daily check-in you must notify the organizer in advance to request an accommodation.

Fair Play

Only the steps counted by your phone application, fitness tracker or watch will be used.

Use real data! It is strictly prohibited change the real number of steps by introducing a higher number or using other methods to create fake data.

Do not give the fitness tracker or the phone to another person. Only your activity should be tracked.

Prizes

The top with the most steps will win prizes. Likewise there will be a raffle for prizes. In order to be considered for the raffle you must complete a minimum of 2000 steps per day, every day in January. Participants who earn a prize through most steps will not be considered for the raffle. The prize will be disclosed later during January, 2024.

We will publish at least weekly the leader boards in the application so that anybody can track their ranking position.

The winners have the obligation to allow the organizers to validate the data by giving access to the phone or fitness tracker.

Only the organizers consider the data is valid or invalid, their decision is final and cannot be contested.

General

Respect all the people involved in this project, including participants and organizers.

The organizers are absolved of any responsibility with regard to potential accidents or negative effects on the contestant health.

Try to be always safe, stay hydrated and keep an eye on the traffic.

In case of "force majeure" event types, the organizers are exonerated from any legal responsibility.

The organizers reserve the right to change the present Rules, even during the competition, without harming the rights of the competitor with regard to the prizes that are won or announced.

Copyright

By being part of the competition, the contestants accept the right of the organizers to create content, including statistics, and publish the created content within the office.
